

## Physical Activity Assessment of Impacts

### WALK-TO-SCHOOL PROGRAM CHARACTERISTICS

	Default	Theoretical Max.	Input
Avg walk distance to school (mi)	0.6	N/A	0.6
Assumed walking speed (mi/hr)	1.8	N/A	1.8
Avg # days walked to school among those who walk to school (days/week)	3	5	3
% of total who walk to school at baseline:			inputs below must be >0 & ≤ max. specified at left
Elementary	24%	90%	24%
Middle School	24%	90%	24%
% increase in # walkers due to intervention:			inputs below must be >0 & ≤ max. specified at left
Elementary	64%	317%	64%
Middle School	64%	317%	64%
